

FPW – Food Poultry Wash-down hose feels like rubber hose, acts like thermoplastic hose. Developed for use in oil and animal fat environments with moderately hot water and mild detergents.

POTENTIAL USE:

- Meat/poultry wash-down
- Dairies
- Food processing plants
- Breweries
- Hot water cleanup service
- Grocery store meat counters

FEATURES:

- Moderate heat resistance
- Oil resistant for use in food environments
- *Rubberized* Thermoplastic for enhanced flexibility
- Available in assembly or bulk form
- Heavy duty one piece interlocking fitting

CONSTRUCTION:

- **Tube:** Specially Formulated, PVC Compound
- **Reinforcement:** High Tensile Strength Textile Cord
- **Cover:** Animal fat and oil resistant PVC hybrid

TEMPERATURE: -15°F (-26°C) - 160°F (71°C)
