

The Pneumo hose is part of a diver's lifeline referred to as the "umbilical". It uses a small volume of low pressure air to measure the diver's depth. In emergencies, it can also be used as a backup air supply.

Our high-quality PVC compounds enable this hose to perform extremely well as a low-pressure air hose versus standard rubber hoses. Its light weight makes it an ideal hose for Pneumo applications.

FEATURES:

- Chemical resistance of PVC
- Compatible with brass re-usable fittings
- Extremely flexible and durable
- Lightweight
- Long continuous lengths
- Medium/high oil resistance, complies with RMA's Class B Designation
- Multiple colors to choose from
- Private branding available
- Non-marking pin-pricked cover
- One-piece reel lengths
- Non-marking pin-pricked cover
- RoHS compliant
- Silicone-free core and cover
- U. V. and weather resistant

CONSTRUCTION:

- **Tube:** Specially Formulated PVC
- **Reinforcement:** High Tensile Strength Textile Cord
- **Cover:** Specially Formulated PVC

Pneumo Hose comes in reel lengths of 2500 ft. All pneumo hose is made to order and is subject to minimum quantities.
